INDEX

Air, sampling and analysis of for Propoxur 339
Analysis, flameless atomic absorption of mercury 138
Animals, absorption of PCB in rats 26
avoidance of pesticides by untrained mosquitofish 46
DDE kills kestrels 193
effects of insecticides on vitamin E etc. in 297
expoxidation of aldrin by aquatic food chain 219
organochlorines in Acanthaster 251
pesticide levels in deer 1
toxicity of PCB and DDT to mice 245
Arsenic, wildlife kill from misuse of 122
Bird, effect of PCB on gull thyroid 306
Birds, organochlorine residues in pheasants 356
Carbamate, determination of RE-11775 in water, soil, etc. 109
Carcinogens, formaldehyde as a possible 242
nitrosation of sarcosine 375
Chromous chloride reduction, employed in confirming endrin 105
Citrus, potential residue problems of low volume sprays 38
Carbon monoxide, effect on respiratory enzymes 113
Crayfish, insecticide tolerances of two populations of 334
mirex in wild populations 369
Cytochrome P-450, difference spectra effected by pesticides 186
DDE, thins owl eggshells 65
DDT, and PCB effects on organisms 129
discrimination from PCB by GLC-MS 208
histomoniasis in chickens fed 147
in forest trees and lumber 19
in soil after 24 years exposure 329
metabolism in diatoms 81
residues in Norwegian cod liver 120
Eggshells, DDE thins owl 65
effect of methyl mercury on 89
x-ray diffraction of brown pelican 84
Endrin, confirmation by solid matrix derivatization 169
Enzymes, inhibition of electron transport by insecticides 141
Ethyl m-hydroxycarbanilate carbanilate, metabolism in beets 73
Fenitrothion, persistence in forest environment 10
Fish, analysis of PCT in 52
avoidance of pesticides by mosquitofish 46
DDT residues in Norwegian cod liver 120
inhibition of NaK-ATPase by organochlorines and PCB 69
mercury and methyl mercury in species of 273
metabolism of diazinon by liver microsomes 61
total and organic mercury in 257
Forest, DDT in trees and lumber 19
persistence of Fenitrothion in 10
Fungicides, oxathiin effects on biological systems 311
GLC, of paraquat in water 363
Heavy metals, temperature and acute toxicity of 91
Herbicides, persistence of 2,4,5-T 229
Insecticides, DDT and vitamin A in volunteers 317
DDT fed chickens susceptible to histomoniasis 147

Insecticides, rate constant for heptachlor hydrolysis 234
dieldrin effects on pork lipids 289
effects on growth of staphylococcus sp. 158
effects on serum proteins and PBI 177
effects on vitamins etc. in neonatal calves 297
epoxidation of aldrin 219
in rainwater 238
organophosphate residues on cotton in Arizona 361
toxicity of DDT and PCB to mice 245
separation of aldrin from PCB 327
transport, of in human blood 321
Lead, levels in roadside animals 280
Mass spectroscopy, discrimination between PCB and DDT by 208
GLC and direct inlet of heptachlor etc. 212
identification of Mirex in presence of PCB 97
Mirex ^{14}C, fate of in rat and plant 200
Mirex, MS identification in presence of PCB 97
in wild crayfish populations 369
Mercury, methyl, effect on eggshell thickness 89
flameless atomic absorption of 138
and methyl mercury in fish 273
total and organic in fish 257
translocation and transformation 267
uptake from soil by various plant species 77
PCB, acute intraperitoneal toxicity of and DDT 245
and DDT effects on organisms 129
discrimination of from DDT by GLC-MS 208
characterization of components in technical mixtures 32
effects on gull thyroid 306
identification of Mirex in presence of 97
inhibition of NaK-ATPase in trout 69
intestinal absorption in rats 26
photolysis of pure 217
residues in zooplankton 345
separation of aldrin from 327
UV irradiation of Aroclor 1254 153
PCP, GLC in blood and urine 294
Pesticides, mortality of white faced ibis and 165
Plants, mercury uptake from soil by 77
DDT in trees and lumber 19
Rats, intestinal absorption of PCB in 26
RE-11775, determination in water, soil, and vegetation 109
Residues of pesticides in deer 1
potential problems of low volume sprays 38
Vitamins, E and organophosphate insecticides in calves 297
A in DDT exposed voluteers 317
Water, GLC of paraquat in 363
insecticides in rainwater 238
